From Inspiration to Deep Focus

Share → Focus

From Open to Enclosed

Open → Enclosed

01 Connect

Open Interaction
MX supports open bar areas, keeping visual connection and conversation flowing.

02 Chill

Unwind & Recharge
An open ceiling grid creates gentle enclosure while keeping the space light and airy.

03 Collaborate

Flexible Collaboration
The space opens up for conversation. Open the louvers and let ideas flow naturally.

04 Concentrate

Deep Focus
Switch on the frosted glass for visual privacy and focused work.

One space. Endless possibilities.

How the System Works

From parts to whole, from whole to parts.

Modular Walls & Glass

Freely configurable, with enclosures added or removed to suit different scenarios. A range of interior and exterior finishes lets every space express its own character.

Roof

Lighting and fresh-air ventilation are integrated into one module, automatically adapting to the room size for illumination and fresh air.

Concealed Installation

Fasteners are hidden within the structure, creating a clean, seamless finish.

Common Node
Unified Installation

Standardized Module
900mm grid

Sound Insulation
≥30db

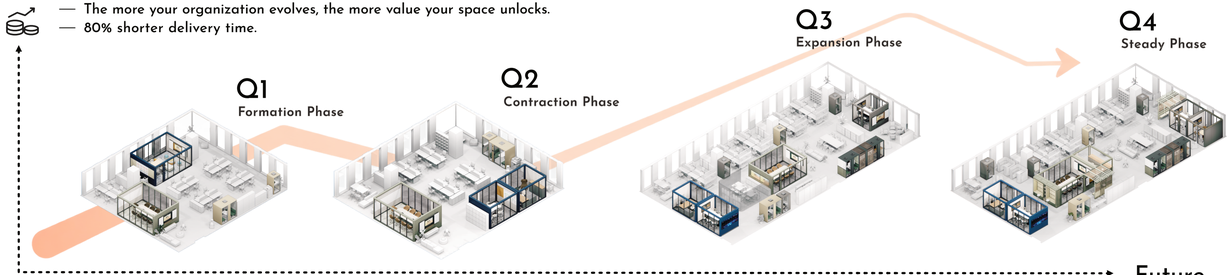

Quick Replacement

Space as an Asset

A Workspace that Grows with You.

— One purchase, ongoing reuse.
— The more your organization evolves, the more value your space unlocks.
— 80% shorter delivery time.

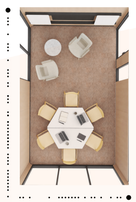

MX 4×3 /
Concentrate, independent and efficiency

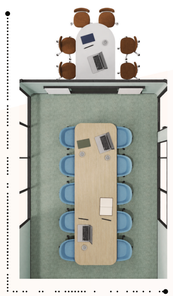

3600 * 2700 mm

MX 5×3 /
Collaboration, group discussion

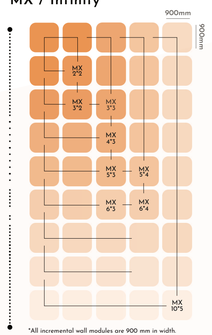

4500 * 2700 mm

MX 6×4 /
Conference, multi-function

5400 * 3600 mm

MX / Infinity

*All incremental wall modules are 900 mm in width.

One System, Multiple Scale.

Fast
Factory-built, site-assembled.
80% faster delivery.

Circular
90%+ of parts are reusable.
Reconfigure without waste.

Asset
Not a one-time fit-out, but a relocatable asset.
